G2200-SERIES

A flexible and comfortable jack of all trades

- A new 4-Cylinder Kubota engine without catalyst (DOC) and particulate filter (DPF) ensures powerful performance;
- Standard double acting hydraulic function (mechanically operated) can easily be expanded with additional functions and a dual gear pump;
- The G2200 HD and HD+-models come standard with a 2-speed gearbox and heavy duty axles for higher pulling force and higher top speed
- Choose the standard version for a higher lifting height, and the X-TRA for a higher tipping load;
