G2200E SERIES

SPECIFICATIONS

MODEL	G2200E	G2200E X-Tra
ENGINE	 6.5 kW	 6.5 kW
SERVICE WEIGHT	4,850 lbs	4,850 lbs
LIFTING HEIGHT	111.2 in.	96.5 in.
TIPPING LOAD	3,197 lbs	4,054 lbs
WORKING HYDRAULICS	9.2 GPM	9.2 GPM
BATTERY	Li-ion 520Ah/48V	Li-ion 520 Ah/48V
MAX. SPEED	12.4 mph	12.4 mph

Less tire wear and ground damage

Higher lift heights and higher tipping loads compared to service weight

Enhanced operator comfort through articulation and oscillation

Zero Emissions

Universal plate

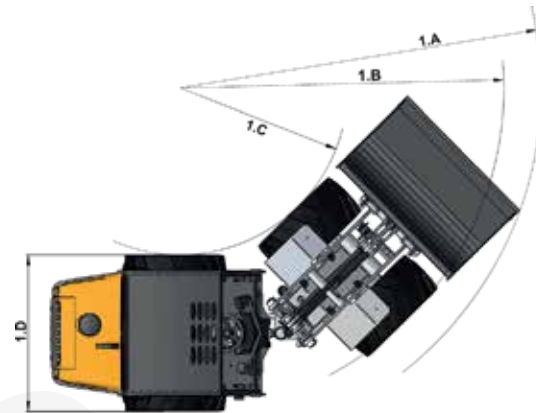

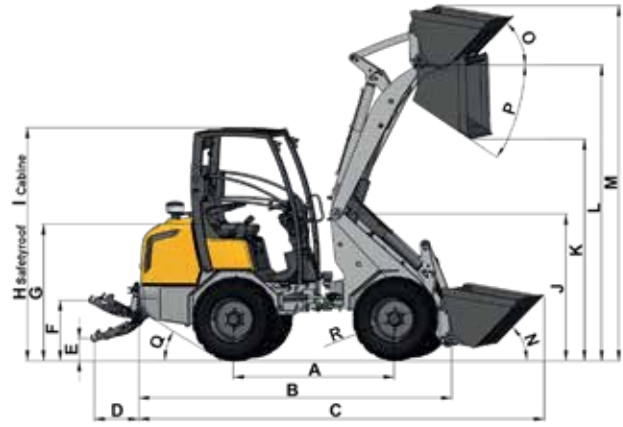

Safe entry

The GiANT G2200E is a true game changer, combining near silent operation with all the advantages of having an oscillating wheel loader. Since the machine offers zero emission operations the G2200E is as ideal for indoor operations as it is with outdoor jobsites. This GiANT comes with a 520Ah Li-Ion battery (smaller 260Ah and 390Ah battery options are available). Two 48v electric motors provide a strong and reliable system; a 6.5kW motor for the drive train and 12kW motor to the hydraulic work pump. This machine features energy regeneration when traveling downhill or braking, extending the already impressive runtime. Multiple charging options are available, from on board to wall mount charging systems and inputs from 230v – 480v. Ask your dealer for more information about the G2200E!
